

Cable Splicer

Plateau, your local telecommunications services and systems provider, is accepting applications for a Cable Splicer.

Primary responsibilities include preparing various types of outside plant fiber optic cables for splicing, operating fiber optic test equipment (OTDR and power meters) to read and understand the test results for trouble-shooting purposes, splicing fiber and copper cable, servicing and upgrading various telecom services including basic telephony, and performing all aspects of the work in accordance with standards and specifications. This person must have previous technical field experience, including the ability to read and accurately apply staking sheets and splicing details. A demonstrated ability to organize, prioritize and complete daily work assignments without close supervision is required. The person in this position must be able to coordinate closely with other departments within the company.

At least 1 year of previous splicing experience is required. Two to three years of previous telecommunications technician experience is preferred, along with an Associate's degree in Electronics/Telecommunications, or the equivalent. Additional minimum requirements include ability to lift at least 50 pounds, a valid driver's license with clear 3-year driving record, the ability to work in close and confined spaces, and the ability to perform physically exerting tasks with routine exposure to dust, dirt, wind, and temperature extremes.

This position will require extensive travel, during daytime and nighttime hours, throughout eastern New Mexico. Some shift, overtime, on-call, weekend work and/or overnight stays will be required.

This position is eligible for a variety of exceptional benefits, including company-paid medical, dental, vision and prescription insurance, 100% company-paid annuity pension plan, 401k, generous paid time off and paid holidays.
